AGA[™]

AGA INTRODUCES A NEW WAY TO FRAME AN ICON.

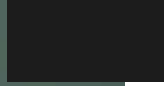

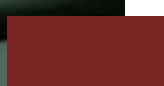

AGA proudly unveils its first collection of bespoke cabinetry, engineered specifically for the Elise range. This collection unites AGA's heritage of performance with the refined craftsmanship of John Michael Studio. While the AGA Elise brings the soul of the modern farmhouse, rustic yet refined, fresh and timeless, the cabinetry introduces sculpted lines, confident color, and precision-built forms to create a kitchen that feels both inviting and distinctly tailored.

Each cabinet composition is designed from the ground up around the Elise, honoring the range as the natural centerpiece. Proportions, reveals, and sightlines are carefully considered so the cabinetry does more than fit, it elevates the entire space. Luxury wood and stainless steel construction, precision-formed detailing, and premium finishes deliver both enduring strength and refined beauty.

The result is a cohesive composition of color, metal, and form that balances timeless appeal with modern innovation. The AGA Elise Kitchen Collection creates a space that feels curated from the very first sketch, where every line leads back to a single truth. The range is the heart of the kitchen, and the cabinetry is its perfect frame.

COHESIVE DESIGN

The AGA Elise line stands out for blending a fresh, modern European aesthetic with serious performance. It brings heritage and warmth into contemporary kitchens, especially for clients who want color, character, and professional-grade flexibility without a purely industrial look.

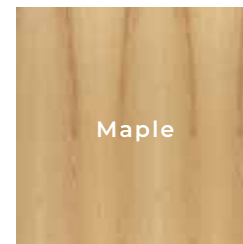

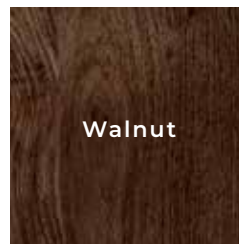

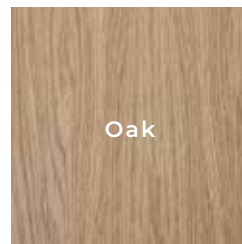

COLOR PALETTE

Featuring the refined tones of the AGA Elise range, the cabinetry collection delivers a harmonious blend between appliance and cabinetry design. This integration empowers customers and designers to create a unified, color-coordinated vision.

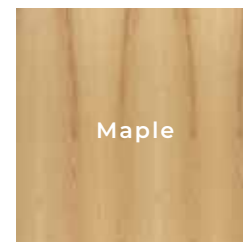

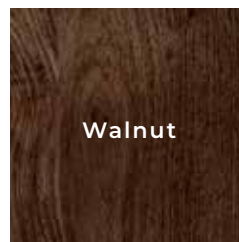

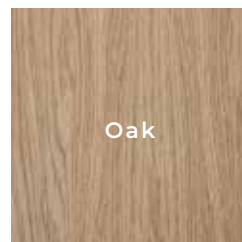

AGA ELISE CABINET INTERIORS

AGA Elise base cabinets are offered in maple, oak, and walnut, providing a furniture-grade foundation that feels as bespoke as if crafted in a storied British cabinetry workshop. Upper cabinets are available in the same premium hardwoods or can be elevated with coated stainless steel, giving designers the freedom to echo the range's color and trim in a layered, couture-inspired composition.

BASE CABINET OPTIONS

UPPER CABINET OPTIONS

AGA ELISE CABINET EXTERIORS

The AGA Elise cabinet exteriors are crafted from stainless steel and finished in either refined brushed stainless or one of our carefully curated powder coat colors. Doors, drawer faces, fillers, and panels are all designed as a cohesive system, aligning clean lines and balanced proportions for a unified presentation. Each element is tailored to complement Elise appliances, creating a harmonious, furniture-quality installation throughout the kitchen.

WALL CABINET DESIGN

The AGA Elise upper cabinets deliver generous, well-organized storage tailored to the demands of any culinary space. A range of configuration and detailing options allows for thoughtful customization, ensuring your kitchen reflects your personal vision while maintaining a cohesive, elevated aesthetic.

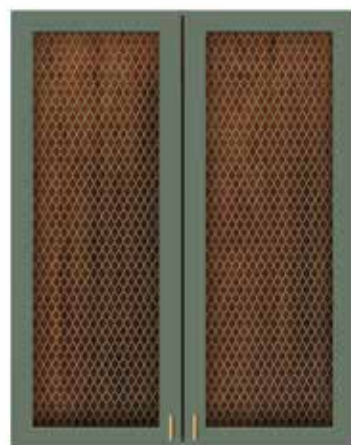

ALL METAL

The AGA Elise can feature solid metal-front doors that are favored for their classic and timeless character that pairs beautifully with the range's rustic, yet refined reputation.

GLASS FRONTS

The AGA Elise upper cabinetry can feature glass-front doors that open up the space visually, showcasing curated decorations, dinnerware, and bringing a unique personal touch to your space.

MESH FRONTS

The AGA Elise upper cabinetry can feature a refined wire-mesh overlay, introducing layered texture and artisanal character while still visually opening the space and subtly framing curated dinnerware in a distinctly British presentation.

THE COMPLETE AGA ELISE KITCHEN

Beyond the range, the AGA Elise kitchen can be thoughtfully expanded with coordinating refrigeration, wine cabinets, and dishwashers that complete the composition with the same sense of intention and elegance. Each addition is selected to complement the color, metal detailing, and architectural presence of the range, ensuring the entire space feels cohesive rather than assembled. Integrated seamlessly alongside the cabinetry, these elements extend the spirit of AGA throughout the kitchen, pairing refined performance with visual harmony. The result is a fully realized culinary environment where every appliance contributes to a unified design, allowing the AGA Elise kitchen to unfold as a complete and beautifully balanced statement.
